

NAVIGATING LIFE TRANSITIONS PROGRAM

Week 1:

**Introduction to
Life Transitions**

Discover the four types of life transitions
and how to thrive through each.

**DID YOU
KNOW?**

Transitions often affect your mental health more than you may realize. Studies show that unanticipated transitions can lead to increased anxiety, while sleeper transitions (those we don't expect to have a big impact) often surprise us with the magnitude of their emotional weight.

Reflective Exercise

Think about a recent transition in your life. Identify which of the four types it fell within (Anticipated, Unanticipated, Nonevent, or Sleeper)? Describe below how this transition impacted your emotions and your day-to-day life.

“

**TODAY'S
INSPIRATIONAL
REFLECTION**

Life is a series of natural and spontaneous changes. Don't resist them; that only creates sorrow. Let reality be reality.

— Lao Tzu
